(An Editorial.)

BATTLE BRITISH War has been forced on America by an insane clique of Japanese militarists who apparently see the desperate conflict into which they have led their country as the only thing that can prolong their power.

Tokio's Ships Flee worked with all our hearts to avert, has happened. That is all Hint U.S. Battleship that counts. It has happened. America faces war thru no volition of any American.

Recriminations are useless and we doubt that they will be indulged in. Certainly not by us. All that matters today is that we are in the war and the nation must face that simple fact. All of us, from this day forth, have only one task. That is to strike with all our might to protect and preserve the American freedom
